## GREENLUND MEASURE TO COMMITTEE

License Bill Will Not be Reported Out Before Next Week

## CRIMINAL STERILIZATION

Attacked by Rep. Bigelow and Bill for Its Provision Meets Death—House Favors Bill Annuling 50-Yr. Grant.

Columbus, March 12.—The Greenlund liquor license measure which was sent to the house, was referred to the liquor traffic committee. The bill is expected to be reported out of committee next week.

The bill providing for the sterilization of criminals, insane persons and other defectives was killed today following an attack upon it by Representative Bigelow. He said the sterilization board provided for in the bill would be responsible to no one.

For the first time attempt was made to use the provision of the constitution of 1851 that no grant of special privilege or immunities shall be made which the general assembly may not alter, repeal or revoke, when the house yesterday by 75 to 45 voted second reading approval of Herbert S. Bigelow's bill annulling the 50-year franchise of the Cincinnati Traction Company.

The favorable vote was helped by the prediction of the author of the bill that if it passed it would not be put into operation, as during the 90 days to intervene between passing and going into effect the bill would be used as a club to compel surrender by the company of its franchise and acceptance of such terms as the Hunt administration should dictate. The bill itself substitutes for the revoked franchise an indeterminate franchise to last until the city should buy the company's property, the company to continue operations under regulation of service and fares by the city by means of a subcommittee which would have all the power of a local utilities commission.

Strong efforts were made to line up the Democrats solidly for the bill as a party measure, but no denial was made to the assertion of Representative Kramer of Richmond that it was not an administration measure and that Governor Cox had gone no further in aid of it than to insist that Mr. Bigelow preface the bill with a preamble to show that there were extraordinary conditions which required such extraordinary remedy. Forty-four Democrats, eight Republicans and two Progressives voted for the bill, the affirmative votes including those of all the Franklin county members, except Mr. Carroll. Three members, Speaker Swain, Mr. Morris and Mr. Cowan did not vote.

Reading from debates of the second constitutional convention, Mr. Bigelow showed that thirty days were taken up with discussions of this revocative power, that the fight was between the Democrats and the Whigs, not, however, whether the power should condition all future grants, but should be retroactive and apply to grants under the first constitution. He quoted Judge Rufus P. Ranner, among the ablest of Ohio jurists, as favoring taking away the franchise, but not the property of a corporation.

Both the author and Mr. Black and Mr. Reppert of the Hamilton delegation made much of the United States supreme court decision in the San Antonio street railroad case, in which a similar revocation clause of the Texas constitution was upheld. The legal argument of the proponents of the bill was that the power to recall was a prior condition of all grants since 1851 and, therefore, revocation was not breaking a contract or confiscation.

That is was confiscation and breaking of faith which would be notice to the world that Ohio would not respect public contracts, was asserted by Mr. Cappelle of Cincinnati and other speakers. Mr. Snyder of Pickaway was not successfully controverted by the supporters of the bill when he charged that the African in the woodpile was a scheme to let the city buy the road for less than its worth. He said the passage of the bill would make the corporation a dead concern, and then it would be impossible to value the property as a going concern. It would be valued merely for the worth of its tracks and rolling stock.

Mr. Black declared provision in the Rogers law for court review of new terms to be agreed upon by the city and the company every ten years was a crude joke, as there was no court of competent jurisdiction to fix rates and terms. Mr. Bigelow charged that Representative Rogers of Cincinnati, the

author of the 50-year enabling act, who was not in the coal business, was paid \$5000 to \$6000 a year by the traction company to furnish it coal, but never supplied one pound. He said he had so ascertained from papers in a suit which Sol P. Kincaid, a coal dealer, had intended to file against Rogers, but had not, because his contract had been verbal and was not over a year old. He also charged that money was sent from Cleveland to buy votes for the Rogers bill.

Replying to this, Representative Kramer of Richmond said: "We were to repeal laws because somebody was paid for his vote, we would be repealing a great part of the statutes." He charged that some of the Cincinnati members would not shed tears if the bill was beaten, but were too cowardly to vote against it. Representative Reid of Fayette reminded one Democrat that President Wilson had just said that the Democratic party was for constructive, not destructive reform.

The house killed the Chapman bill to create the position of state plumbing inspector, and the Nye bill requiring approval by the state work-shop inspector of all public buildings before the latter bill was voted down. Mr. Vanderheide of Montgomery secured the insertion of an amendment exempting churches.

Senator Zimut of Cleveland would abolish the office of coroner and vest his duties in a county medical examiner, to be appointed by the prosecuting attorney at a salary not to exceed \$2500 a year. Assistants would receive a maximum of \$1500 a year.

A bill by Senator Wise of Stark county would require private hospitals for treating insane persons to be licensed and subject to inspection.

## MAY CHANGE CONVENING OF NEW CONGRESS

Washington, March 12.—It is regarded as likely that the special session of congress will not convene before April 7 or 8, because the ways and means committee will be unable to prepare the new tariff bills by April 1.

Representative Underwood, the Democratic leader, today urged President Wilson to postpone the date for convening of the extra session at least one week, and inasmuch as April 1 was decided upon at Mr. Underwood's suggestion, the request will in all probability be granted.

The president's proclamation calling the new congress is expected to be submitted to the cabinet today. Mr. Underwood assured the president that house leaders would be able to confine the attention of congress to the tariff.

The Democratic caucus is to decide whether the tariff is to be revised in one bill or each schedule taken up separately.

## CAR JUMPING TRACK CRASHES INTO A HOUSE

Cincinnati, March 12.—Garret Coons, bartender, was killed and eight other persons severely injured today when a street car jumped the track and crashed into an apartment house.

## POLICE TO DISPURSE STRIKERS

Akron, O., March 12.—Sheriff D. R. Ferguson today issued an order forbidding congregation on the street or picketing by I. W. W. strikers. The police and deputy sheriffs are ordered to disperse any crowds which congregate. The order does not prohibit the meeting of the I. W. W. strikers scheduled for this afternoon, but they are warned that they will be immediately dispersed if any riotous demonstrations are made.

Haywood, who was expected today, will not arrive until Thursday. George R. Jinks, former employee of the Goodyear Tire & Rubber Co., and a member of the I. W. W., testified in the Green senate inquiry today that he believes in the principles of the I. W. W., as set forth in the "Red Book," the official pamphlet of the organization, and advocates the use of sabotage, or the destruction of machinery in the factories to compel the employer to meet the demands of the employees. Jinks says he has been a socialist ever since he has been old enough to vote, and that sabotage affords the only weapons for the employees. Five hundred Akron citizens, including workmen, lawyers, doctors, and ministers, were today sworn in as special deputies by Mayor Rockwell to protect people of Akron and property against violence in connection with the rubber strike here.

## WEALTHY FARMER ENDS HIS LIFE

Lima, March 12.—Arnold Motter, aged 37, a wealthy farmer, committed suicide here by hanging himself from the rafters of a barn. Motter is believed to have been insane, although he had often threatened to end what he termed an "odious existence." Less than 10 years ago, Motter's father ended his life in a similar manner.

## WILL ENFORCE THE NEWSPAPER PUBLICITY LAW

Washington, March 12.—Unless the supreme court restrains Postmaster General Burleson from enforcing the newspaper publicity law, he will immediately do so, regardless of an agreement by former Postmaster General Hitchcock to withhold action pending a determination of its constitutionality. This was admitted by Burleson today.

Final notice has been sent to a number of publishers that if they do not furnish the information required by the law within ten days, their publications will be denied admission to the mails. Approximately 91 per cent of the publications have failed to file their reports. It was reported today that former Postmaster General Hitchcock had on Feb. 28 decided to terminate the agreement.

## BOY IMPROVING AT SANITARIUM

Dewey Young, the fourteen-year-old boy who was shot in the back of the head Monday afternoon by Griffith Jones, aged 76, the latter claiming it an accident, is said to be very much improved. Attendants at the Newark Sanitarium, where the boy was taken after the shooting, state that while he is not yet entirely out of danger there is every hope for a speedy recovery.

## RUNAWAY LADS PICKED UP TODAY IN PATASKALA

Two lads giving the names of John Moore and John Hudson, were picked up by the marshal of Pataskala, Wednesday morning, and Provision Officer James Sheridan was notified. They gave their homes as Portsmouth, and it was at first thought that they were runaways from the Lagrover Industrial school, but a telephone message to the superintendent brought the answer that they were not wanted there. The chief of police at Portsmouth notified Officer Sheridan that there were no missing boys from that city and they were sent to Newark and taken in charge by the juvenile court officer who will endeavor to locate their families.

## BRITISH VESSEL SINKS IN ELBE; CREW RESCUED

Hamburg, Germany, March 12.—The sinking of the British sailing vessel Glenavon off the mouth of the Elbe was reported by the lightship there early today. She carried a crew of 26 men who were rescued.

## START OF KOHLER'S DEFENSE

Began Today and Attempt Will be Made to Prove Alibi

## GOLDEN RULE CHIEFTAN

Forced to Listen to Witness Describe How He Caught Him in Dishabille—Tells of Companion in a Kimono.

Cleveland, O., March 12.—Proof of an iron-clad alibi for two alleged visits to Mrs. May Schearer, at 2696 Daisy avenue, on February 2 and May 23, 1912, will be attempted by first witness, Chief Frederick Kohler's defense, which began before the civil service commission today.

Witnesses are to be brought to declare that Kohler was ill at his home, 1894 East Fifty-first street, on February 2, and to show that he was doing police duty on the night of May 23. On two witnesses remained to be heard for the prosecution when the hearing closed last evening.

One is Samuel D. Shearer, husband of the woman whom Kohler is accused of visiting. The other is Attorney Alexander C. Mackenzie, who was Schearer's attorney when he obtained a divorce November 12.

The atmosphere of the trial became more intense when two women neighbors and a man gave evidence of the exciting events in and about the Schearer home on June 5, the night when Schearer broke a window and found a man in the house. It is this night that is the focus of the charges.

Clayton P. Benjamin, the only outsider in the house while Schearer, the visitor and the women were there, said he saw a man supposed to be Kohler advance out of a rear vestibule, his hands raised. "I'm good," he said the intruder told Schearer. "I'm bad; what are you going to do to me?" "That pretty much depends," the Schearer replied, according to the evidence.

Benjamin told of being called to confront the man and the woman in an upstairs bedroom. Mrs. Schearer, he said, was sitting on the edge of the bed in a kimono, while the man supposed to be the chief stood at the foot of the bed, and Schearer got both to acknowledge they recognized Benjamin.

Benjamin gave a detailed story of the man taking his socks, collar and necktie from a pocket; of the intruder taking a drink, and of his pleading with Schearer not to turn his wife out of doors in the night.

In September Benjamin said Kohler asked him "if there was any chance to fix this up between the Schearers." Soon after that Schearer secured a divorce.

Attorney C. A. Mackenzie, who brought Schearer's divorce proceedings, followed Benjamin on the stand and repeated a conference between himself, Kohler and Schearer. Mackenzie said Schearer wanted an alienation suit brought against Kohler for damages which would provide for Mrs. Schearer, but Mackenzie declined to bring the suit.

Miss Hazel Moyer and her sister, Mrs. Pearl Kibel, declared they had stood at a door of their home at 2608 Daisy avenue, next door, and overheard a conversation, in which a man, presumably Kohler, pleaded for clemency for Mrs. Schearer.

Miss Moyer said she heard the crash of a window, which a witness testified yesterday was broken in by

Presently Mrs. Schearer left the house by the side door, carrying a suitcase. Later two men came out and one joined Mrs. Schearer.

## FRENCH AVIATOR MAKES NEW RECORD ALTITUDE FLIGHT

Paris, March 12.—A new world's altitude record was established yesterday at the Buc Aerodrome by the French aviator, Perreyon. In a monoplane he rose to a height of 6,000 metres (approximately 19,500 feet). The previous world's record was held by Georges Legagneux, who reached an altitude of 18,776 feet at Villacoublay on September 17, 1912.

## MERCHANTS MAY ESTABLISH WAGE SCALE FOR WOMEN

Chicago, March 12.—A careful study of the probable effect of establishing among themselves a minimum wage scale for women is being made by the big retail merchants of this city following the recent session of the state vice commission. A formal meeting will be held by the merchants and members of the commission tomorrow, but this for merchants believe that \$8.00 a week is the most practical wage for beginners.

## VACCINATION FOR EMPLOYEES OF DEPARTMENT

Washington, March 12.—About 1,600 employees of the war department today were ordered to be vaccinated because of two cases of smallpox among department employees. Secretary Garrison was the first to bear his arm under the order.

## OFFICIALS WILL NOT ADMINISTER FRIEDMANN SERUM

Washington, March 12.—Government tests of Dr. F. F. Friedmann's serum, which claims to cure smallpox, are proceeding with difficulty, but the Bureau of Hygiene has not yet decided whether to use it as one of the means of making the people immune to the disease. He has been repeatedly asked to submit to the government the results of his experiments, but he has refused to do so.

## 500 KILLED IN BATTLE AT PARRAL

Number of Americans Said to Have Lost Their Lives

## FEDERALS VICTORIOUS

A Number of Buildings Wrecked Before Constitutionalists are Driven from City by Huerta's Soldiers.

Mexico City, March 12.—Two thousand followers of Governor Carranza of Coahuila are surrounded in the vicinity of Lapazos Neveau Leon by 4,000 federal troops, according to a statement from the war department today. A decisive engagement is expected within a few hours.

Simultaneously with the departure of an army for the north, the first heavy movement of troops took place in the country formerly overrun by Zapata, was made. Three columns, said to number more than a thousand troops will undertake combined action and the contest is to be waged bitterly.

Douglas, Ariz., March 12.—General Oyeda, and 450 men evacuated Agua Prieta at 9 o'clock today and began an overland march west to Nogales, where Col. Kosterlitzky's rurales police are threatened with attack. Each man carried all the arms and ammunition possible.

Nogales, Ariz., March 12.—The state of Sinaloa, south of Sonora has revolted officially against Huerta's national government and named a provisional governor, according to reports of persons arriving here today from Hermosillo. They also report the Yaqui Indians of Sonora have volunteered to assist the rebels.

El Paso, Texas, March 12.—After a battle lasting 50 hours, during which more than 500 men, women and children were slain, 1,700 constitutionalists, rebelling against Huerta's national government in Chihuahua, have been driven from Parral. Chihuahua, by about 1,500 Federal regulars.

Parral is the center of American mining and industrial interests, and many Yankees reside there. It is reported that several of these were killed when the constitutionalists opened fire on the city.

Scores of buildings are wrecked as the result of the bombardment. The Federals, caught unawares, had to call in townspeople to help them. Later they recovered and after a long battle succeeded in ousting the constitutionalists.

The former insurrecto troops, who rebelled against the Huerta government and left Parral last week after mobilizing and recruiting at Santa Barbara, returned on March 5 to retake the city. One thousand Federals from Chihuahua City had re-enforced the 200 regulars at Parral.

On the afternoon of March 5 the insurgents attacked and the battle continued until the evening of March 7. On the morning of the last day the rebels took the fortified hills surrounding the city, driving the Federals to cover in the town.

Colonel Mercedo the carrison commander and Colonel Castro, who had brought the re-enforcements from the state capital, called for volunteers to retake the outlying positions. Five hundred men responded, and after charges and almost hand-to-hand fighting drove the insurgents from the hills.

Then the constitutionalists concentrated their fire on the south section of the town, driving the city officials from their houses and causing great loss of life to the residents. At night the insurgents withdrew until pursued during the fighting mobs of townspeople rioted, burning the market places and attacking the banks. Violence from the soldiers' ranks soon started the internal disturbances.

El Paso, Texas, March 12.—Advices received here today said the rebels had burned a railroad bridge south of Chihuahua City and cut all rail and wire communication from that point south.

## GOV. COX WILL ADDRESS ELKS AT MIDDLETOWN

## GREATEST VALUE EVER OFFERED FOR TWO CENTS

By JOHN F. FALLON

The power of two cents is truly wonderful when one considers what it will buy.

It will buy an evening's entertainment. It will buy pages of cleverly written incidents happening throughout the world. It will buy complete stories of adventures in the daily lives of men and women. It will buy comics and ludicrous features that "bring happiness to declining years and erase the fingermarks of time from wrinkled brows."

It will buy the latest news of theatredom, the successes of the operatic stage, the baseball and gridiron feats of skill and strength, the review of the latest books and music.

Do you know of a greater value for two cents than your daily newspaper?

The pennies you invest in THE ADVOCATE will pay dividends a hundred fold if you will read its advertisements closely and constantly every night and take advantage of the money-saving opportunities they afford.

### TREATMENT FOR OAT SMUT.

Seven to Ten Per Cent. Lost in Production by Not Treating for Smut.

(By L. H. Bolley.)

[National Crop Improvement Service.]

It will cost about eight to ten cents per acre for treating oats with formaldehyde for smut. By a large number of tests it has been found that on a conservative basis there is a loss from seven to ten per cent. due alone to smut; or in other words, the farmer loses annually from three to five bushels of oats per acre to smut which could have been eliminated for not to exceed ten cents per acre by treating the seed with formaldehyde. One pound of formaldehyde (40 per cent.) mixed with 40 gallons of water will treat 40 bushels of oats. The oats should be spread out about four or five inches deep; a sprinkler is a very convenient method of applying the solution. While the solution is being added it is well that the oats be stirred (a rake can be used for this purpose), in order that the solution may become equally distributed. The oats should then be shoveled into a pile and covered with blankets by gunny sacks, something to prevent the formaldehyde from evaporating too readily. This treatment may be done in the evening, and the oats left covered during the night. The following morning they might be uncovered and spread out. By stirring them occasionally it will be found that they will soon dry out and may be sown the same day.

### Simplest and Best.

If more oats are treated than are needed for seed, they may be fed after they have been exposed to the air for 24 to 48 hours, during which time the formaldehyde will have evaporated. The formaldehyde treatment is the simplest and most effective treatment for smut in oats. In purchasing the formaldehyde, great care must be taken that it is of the proper strength as above stated. Should it be weak, the treatment will be of no avail.

### Advice to Local Druggists.

This matter of the farmers in your immediate locality being able to procure formaldehyde of standard strength is one of vital importance to you. You and your town will prosper only as the farmers that surround and make your town. It is an easy thing for you to see to it that they get only the full strength and weight. I have found that many so-called pound bottles of formaldehyde contain only 11 to 12 ounces. The formula calls for 16 ounces—for a pound. The different treatments will fail if made upon a weaker basis. Farmers often wish to know if a solution which has been made up for a time loses its strength. There is a loss of formaldehyde from the barrel but the water evaporates faster than the formaldehyde so that the actual solution in the barrel is really stronger than when first made up, though not so much of it.

## SAGE TEA BRINGS NATURAL COLOR TO GRAY, FADED HAIR

Mixed With Sulphur It Darkens Beautifully and Takes Off Dandruff.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get a large bottle for about 50 cents. Some druggists make their own, but

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

These Olive Tablets oil the bowels—yet have no oily taste. They are a vegetable compound mixed with olive oil.

If you want a clear pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause. Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10 cents and 25 cents per box.

"Every little Olive Tablet has a movement all its own." Take one or two nightly and note the pleasing results.

**LICKING COUNTY  
OPPOSED TO THE  
GERRYMANDER.**

The following article pertaining to the Congressional gerrymander introduced by W. D. Fulton is published in the Ohio State Journal of Wednesday morning:

Representative Fulton's congressional gerrymander bill drew quick fire. It brought to Columbus from Washington, in less than 24 hours after the bill was introduced, Congressman W. A. Ashbrook of Johnstown.

Making no bones about admitting the expediency of his trip from a personal point of view or his conviction that something must be done to stop the measure, lest a promising career at the National capital be snuffed out, the Licking county Congressman hastened to the house yesterday and, getting hold of his constituent and prospective rival for the next congressional nomination in the Licking county district, Mr. William Duane Fulton, informed him it was imperative that they confer at once on the condition of the union and the preservation of the Nation.

Mr. Fulton must have anticipated the request, for at once he pulled from his pocket a memorandum showing that he had an engagement for every half-hour of the afternoon and evening and all the next day. The Fulton bill puts Mr. Ashbrook in a district nominally Democratic, but one in which he has no organization built up by distribution of garden seeds, postoffices and private pension bills. Under these circumstances, Mr. Fulton thinks he can start on even terms with Mr. Ashbrook for the nomination in the new Seventeenth District.

The above statement in the Ohio State Journal is based on false information that has been furnished the editor of that paper from a source that is pretty well understood in Newark. Congressman W. A. Ashbrook left Washington on Wednesday, March 5, and came through Newark on his way to Johnstown on Thursday, March 6. This shows how much truth there is in the statement that he came "hot foot" from Washington on account of the Fulton congressional gerrymander, because the bill had not been introduced in the Legislature when Mr. Ashbrook came home.

That the Democracy of Licking county are indignant at the gerrymander putting the county in a new district composed of the counties of Muskingum, Licking, Coshocton, Knox, Morrow, and Richland, is stating the fact mildly.

"It is a miserable abortion," is

the way one of our most esteemed and representative Democrats expressed his opinion today, and a canvass of the well-known party leaders of this city failed to find a single one who approved the measure.

The claim has been made that the gerrymander had the approval of the state administration and the party organization, but this was absolutely repudiated on Tuesday.

A letter received by the editor of the Advocate from the editor of the Holmes County Farmer, the party organ of that Democratic stronghold, contains the following sentiment regarding any gerrymander that proposes to rip up this congressional district:

"We do not want the present Seventeenth Congressional District, as it now exists, monkeyed with. The trouble with the present Legislature is that there are too many hot-house politicians in that body who think they ought to go to Congress, when the fact is they have not ability enough to make a good member of the Legislature."

It can be considered a certainty that no such gerrymander stands a ghost of a chance of being passed by the present Legislature.

**Treatment of Scalp.**  
To stimulate the hair roots and scalp and to improve the circulation of the blood grasp a lock of hair close to the scalp and pull firmly in a kind of jerky fashion, but not too hard, of course. Begin at the front and go all over the head to the back. If the hair is already falling some persons hesitate to pull at the scalp, but their fears are groundless, because when a hair is separated from its papilla it is practically dead, and it is better to have it come out as soon as possible, as it only delays the growth of the new hair coming in its place.

**DIRECT ELECTION OF  
U. S. SENATORS.**  
(Enquirer.)

It is stated that certificates showing the ratification of the amendment to the Constitution for the direct election of United States senators have been received by the department of state from nineteen states, and the ratification by the number of states necessary to make the amendment a part of the Constitution is no longer in doubt.

Legislation after legislature has acted favorably, and if not completed by July, which is possibly the earliest date it could secure the requisite number through the approval of legislatures, it certainly will have the required number through the action of legislatures meeting in January, 1914.

Senatorial careers, in many instances terminated, will be terminated by the new methods of selection at primaries and election at the polls by the majority of the voters.

Not in the history of the country have two successive elections retired from public service so many political leaders as did the elections of 1910 and 1912, and the selection of candidates for the United States senate by direct votes of the people at party primaries will also contribute to the surprises that so frequently attend the results of a popular voting contest.

Convention days are over, the rule of state or local bosses is gone forever, packed delegations or corrupted and machine-driven legislatures are things of the past so far as being factors in the election of United States senators is concerned.

The United States senator who takes his place in the highest legislative body of the republic will have a clear and unassailable title to his seat under the new order of affairs.

After his election he will be far freer from dictation by bosses, cliques or scheming political managers than under the old system, and, being directly responsible to the people for his actions as a legislator, he will with greater earnestness endeavor to keep their confidence and to meet with their approval when he appeals for their support another time.

Changes in the political sentiment of the people can be registered in congress much more speedily under the proposed method of electing senators, but there are many prudent men of thought and observation who are not advocates of rapid changes, shifts or transformations, either in public sentiment or in the legislation now on our statute books.

As a special feature of the Y. W. C. A. work in Newark, plans are being made to inaugurate a Camp Fire organization for the girls of the junior department. This movement is similar to the Boy Scout organization and has proven very popular wherever these organizations are established. Acting Secretary Miss Hazel Portwell has just come from Toledo where this movement was made a part of the association's work there and it was her experience that the junior members were delighted with the plans. The first campfire will probably be organized this week and opens as rapidly as the membership warrants.

**REDFIELD'S VIEWS  
ON PHILIPPINES**  
Opposes Freedom For the Islands.  
HE DISAGREES WITH BRYAN.

This sentiment renders Secretary of Commerce Out of Harmony With President and Secretary of State. Redfield Has Been in Islands and Has First Hand Information.

By ARTHUR W. DUNN.

Washington, March 12.—[Special.]—At least one member of President Wilson's cabinet is not in harmony with his chief or with Secretary of State Bryan in respect to the Philippines. Secretary Redfield has been in the islands and after a thorough investigation came to the conclusion that no time should be fixed for granting them independence or passing a law in favor of that course.

He may be able to convince the cabinet that he knows best when he discusses the subject, although Mr. Bryan is a very hard man to convince when he has once made up his mind on any subject. Mr. Redfield only a short time ago made a very vigorous speech against the proposed Democratic policy as represented by the Jones bill granting the Philippines independence in eight years.

**Women Will Work.**  
Every man in congress who in any way discouraged the woman suffrage parade or made remarks about it which can be used against him among the women is to be marked in the next congressional election. The women have declared war on them and assert that they will empty a number of seats two years hence. The women are quite a power in politics, and if they make a personal canvass in those congressional districts they are likely to do considerable damage.

**Plenty of Publicity.**  
Publicity was what the women were seeking, and they certainly got it. The "hike" to Washington and the parade which was almost wrecked, gave them more advertising than they could have paid for with the United States treasury at their disposal. The women will now make an effort to obtain a constitutional amendment for woman suffrage, but that will not be passed until many more states have been added to the suffrage list.

**Cullom Continues at Work.**  
The venerable Shelby M. Cullom, whose thirty years of senatorial service ceased on March 4, has been made an officer of the Lincoln memorial association and will receive a salary of \$5,000 a year. This will continue as long as he lives. Everybody is glad that this action was taken.

After nearly sixty years of public service Senator Cullom is still a poor man, having never made any money while in office. "I never knew how to make money," said he one day, "and I barely scrape along on my salary. I don't know what I will do when that stops, unless," he added sadly, "I stop first."

**Bob Henry's Opportunity.**  
As Bob Henry of Texas did not reach a cabinet place and continues a member of the house he can go right along with his program for changing the constitution of the United States so as to make the inauguration day the last part of April instead of the 4th of March.

Of course he will have more difficulty now, as the last inauguration day was all that could be wished from a weather point of view.

**Denounced "Log Rolling."**  
On the last day of the session there was considerably said about "log rolling" legislation. Senator Williams of Mississippi explained that it originated in the early days when the pioneers helped each other to build their log houses. "It is very pernicious," he added.

Senator Owen of Oklahoma was even more emphatic, and after denouncing legislation for states and districts as opposed to the general welfare such as appeared in the river and harbor bill and the public building bill he said, "The time has come to end it, and I say here in the senate that there never will be passed through this body again a pork barrel bill for rivers and harbors or for public buildings."

Senator Owen may really believe that, but these bills are so "scientifically constructed"—at is, they take care of so many localities—that it is impossible to defeat them.

**Direct Election of Senators.**  
Senator Brewster of Kansas has pointed out that twenty-nine states have ratified the amendment to the constitution for direct election of senators by the people. The amendment has passed one another house in seven other states. These would give the necessary three-fourths of the states to ratify the amendment.

It is expected that they or other states will pass the ratifying resolutions so that the next senatorial elections will be by the people instead of the legislatures. If this is done Maryland and Kentucky, holding senatorial elections next fall, will be the first to act under the new plan.

**THE HUMAN PROCESSION**  
By O. Terrence

STEWART WHITE, WRITER OF NATURE NOVELS, IS 10 TODAY.

Wood is largely used in the manufacture of furniture—which nobody can deny—and furniture is largely made in Grand Rapids, Mich., which is also a statistic that cannot be successfully contradicted. Stewart Edward White was born in Grand Rapids. The interesting event taking place sixty years ago today, March 12, 1873, thus it was only natural that Mr. White should have a fondness for wood, although he prefers it in the plural, woods, in a raw state and with the bark on. If he could have his way, all America would be covered with what the Australians call "bush"—to an Antipodean any tree less than a mile high is "bush"—with bare and there a clearing for a baseball diamond. It may be, however, that the distinguished author and explorer is not now so keen for baseball as he used to be, for not long ago he broke one of his legs—he has two—while engaged in sliding for the home plate in a game at Santa Barbara, Cal., now his home.

Mr. White has made an international reputation by his novels, which bring us to adopt the bromide language of the book reviewer—a breath of the clean, fresh air of Canadian forest and Arizona desert, and which carry us, in fancy, along the trails and through the passes that lead to mountain fastnesses and primeval wildernesses and silent places and all that sort of nally thing. And Mr. White does it very well indeed, having lived the simple life of the pioneer and wanderer in many lands and climes. It is the prime tenet of his literary faith to write only of places and people he knows "by heart." His is not the attitude of the tourist of the curious and critical sucker for "mater-

He lives the life of those among whom he dwells, and becomes one of them, forgetting that such things exist as push buttons and boiled shirts.

In his literary work Mr. White observes a three-hour day, choosing the morning for his task. He usually turns out about 1,500 words a day, and his copy calls for little in the way of corrections and revisions.

Besides "doing" the North American continent pretty thoroughly, Mr. White has hunted his game and witnessed many strange and wild native customs in the heart of Africa. In his latest book he has turned from his blazed trail and has written a story in which a mad scientist attempts to destroy a great city, and in which the young hero intervenes just in the nick of time. It is an excellent yarn, of its kind, but probably most of Mr. White's admirers would prefer that he stick to the blazed trail.

Mr. Adolph S. Ochs—along Park row they say the "S" stands for "scoop"—will celebrate today the fifty-fifth anniversary of his birth in Cincinnati. Now the millionaire proprietor of the New York Times, he is the same Ochs who was a newsboy in Knoxville, Tenn., back in 1859, who was a grocery clerk in Providence in 1871; who, back in Knoxville, was a druggist's apprentice in 1872, and a printer in the office of the Louisville Courier-Journal soon afterward, and who, at the age of twenty, became the proprietor of the doddering, decrepit Chattanooga Times, turned it into a prosperous publication, and six years later purchased, on credit, the New York Times. His new building is a monument to one of the greatest newspaper successes.

**UNITED DOCTORS

Explains Cause for Making Public Statement Regarding Improvement in Health.  
TREATED FIFTEEN DAYS.  
Results Shown Him in This Time Have Indeed Been Remarkable.

"I am extremely grateful for what the United Doctors have done for me," says Mr. Harley Knight of Dills Bottom, Ohio, in speaking of the results given him in his illness by the United Doctors, who have their famous Newark Institute on the second floor of the Arcade building.

"When I first went to those specialists I had constant pain in my back, besides complications that caused me such misery that I could not sleep nights. My appetite was poor and I had lost weight.

"Two weeks ago I went to the United Doctors to inquire what could be done in my case and was told that I could be helped in a short time. The truth of this has already been proven and I am so grateful that I want to praise these expert specialists publicly."

The above is but one of the innumerable statements from nearby people telling of the rapid and indeed wonderful results given them by the United Doctors' non-surgical system of treatment. Anyone suffering from any chronic disease or ailment cannot do better than to consult them. Among other ailments they treat chronic diseases of the nerves, blood, heart, liver, kidneys, bladder, skin, spine, stomach, including rheumatism, epilepsy, gall stones, goitre, indigestion, constipation, neuralgia, rupture, dyspepsia, dropsy, asthma, catarrh, deafness, loss of nerve force and diseases of women and diseases of men.

York, a large territory in America, to be called, in honor of the proprietor, New York. This territory included the Dutch settlement of New Amsterdam and the "colony" of New Netherlands. In April of the same year the Duke of York sent four ships against New Netherlands, with Col. Richard Nicolls in command, to be deputy governor. The Dutch settlers decided that it was useless to argue the case with the English invaders, "who were six times their number," and in the autumn of 1664 Fort Amsterdam and Fort Orange were surrendered. The name of New Amsterdam was changed to New York and that of Fort Orange to Albany. Governor Stuyvesant swore allegiance to Charles II., but soon returned to Holland. New Amsterdam, founded three centuries ago this year, had at the time of the English conquest a population of 1,500, while the total population of the province was about 10,000.

## SOCIETY

The members of the Investigators' club were delightfully entertained at the home of Miss Mary Ben Dicken, south of the city, on Monday afternoon. The program was opened with humorous quotations by the club members and the second number was "What Conservation Would Mean in Ohio," a paper read by Mrs. Fred Fulton. Mrs. Samuel Sachs gave an interesting talk on "Vocational Training." The critic for the day was Mrs. Webb. The club will meet next Monday with Mrs. Otis Morse, at her home 314 North Fifth street.

Miss Gertrude Roberts has returned after a visit with Newark friends. Mr. and Mrs. Carl Gobel and son Richard of this city spent Sunday with Mr. and Mrs. E. P. Keyes of Newark. Roe Francis has returned from Newark where he visited friends. Frank Fulton of Ninth street spent Sunday the guest of his sister, Mrs. Keyes of Newark. Zanesville Signal.

Nelson Metz and Ralph Edwards have returned to Newark after a short visit here. Zanesville Signal.

Mr. and Mrs. A. L. Rawlings returned home from Chicago this morning.

Mr. Percy Copeland has returned to his duties at the Everett glass factory after several days' illness.

Mrs. E. L. Johnson is acting as hostess to the members of her club this afternoon, at her home in Hudson avenue.

The Woman's Home and Foreign Missionary society of St. Paul's Lutheran church, will meet on Thursday afternoon at 2 o'clock in the parlors of the church.

Miss Mary Louise Rank will be hostess to a few friends on Wednesday afternoon at her home in North Sixth street when she entertains out of compliment to Miss Lillian Miller.

With the house prettily arranged in the colors of pink and white, Miss Jessie Bartholomew entertained a company on Tuesday afternoon at her home in North Fourth, out of compliment to Miss Lillian Miller. The entertainment afforded was a thimble work and a dainty refreshment served. Miss Bartholomew's guests numbered twenty friends of Miss Miller.

On Tuesday evening in an informal way Rev. and Mrs. Don Tullis delightfully entertained the church session and the church trustees and their families at the manse in North Second street. The event was in the nature of an informal evening reception, given by the new pastor of the Second Presbyterian church and his wife. At 10 o'clock delicious refreshments were served to about forty guests.

## SNAPSHOTS BY BARBARA BOYD

### A Young Couple's Start

THE trouble with most young couples nowadays," the woman was saying, "is that they want to begin where their parents leave off."  
"Is that so reprehensible?" inquired her listener.  
The speaker looked slightly astonished. "Why, of course," she said, "when I got married, I didn't think I must have a piano, an automobile, electric lights, a gas range, and such things."  
"Would you want Edwin and Martha to go back to tallow dips and wood stoves and a parlor with the shutters closed every day except Sunday, and a buggy, and such things?"  
"Well, no," deliberated the other woman. "Not exactly that. But there is a medium."  
"To be sure, there is," assented her listener. "But in objecting to your children starting where you leave off, you are perhaps going to one extreme, as much as they, in wanting unnecessary luxuries, are going to the other. You think Martha is extravagant in not being willing to marry Edwin until he can provide certain things she wants. But isn't there something to be said for her side of the case?"  
"Perhaps I never thought of it in that way."  
"If all the young folks started where we started, what would become of progress? It is this ambition of theirs to get ahead, to move on to better things than they have possessed, that continually hauls this old world of ours forward to greater and greater achievements."  
"But they can go to extremes," objected the other woman. "They can have entirely too extravagant notions."  
"To be sure they can. But that is just the place for older heads to give the proper advice; not to condemn, wholesale, their desire for the best, but to help them discriminate between the essential and the non-essential. Marriage and love and a home should not be sacrificed for non-essential; but, as most young people have been raised today, marriage and love and the home may come to shipwreck if certain essentials of life are not provided. You must remember that some of the essentials of present-day living were unnecessary or unknown luxuries of your time. Before condemning, get the point of view of today. Most girls reared as Martha has been, would be very unwise to marry on an eight-dollar-a-week salary. The exceptional couple might win out, but even then the experience would be a trying one. And in most cases, there would be a year or two of unhappiness, and then a separation. There is something to be said for the ambition of a young couple to begin where the parents leave off."

## GALLAGHERS' GOLDEN SCREEN.

When I feel blue, as I often do,  
To the square I wend my way,  
Then I step in, to the Lyric dim,  
Find a seat and there I stay.

For the pictures they are charming, the best I've ever seen.  
They seem so plain and lifelike, cast on "GALLAGHER'S GOLDEN SCREEN."  
This screen can not be surpassed; go where'er you may,  
You'll come back again, to the Lyric, to witness the Photo Play.

There's not a doubt of the theater's fame, or that of the pictures serene,  
If you will cast your play, in a correct way, on "GALLAGHER'S GOLDEN SCREEN."  
—M. E. F.

The above verses were written by one of the writers for the AMERICAN PRESS ASSOCIATION, who, after witnessing the Photo Play at the Lyric, could not speak in too commendable a manner of the wonderful "GOLDEN SCREEN," produced by Mr. John Gallagher, Proprietor of the Lyric Theater. Mr. Gallagher was very reticent when an inquiry was made as to the cost of producing his screen. But it was gleaned from general conversation that it reached far up in the thousands.

## ELDERLY FOLKS MUST AVOID CALOMEL AND CATHARTICS

Delicious "Syrup of Figs" is Harmless to Cleanse Your Stomach, Liver and 30 Feet of Bowels of Decaying Food, Sour Bile, Gases and clogged up Waste

You old people, Syrup of Figs is particularly for you. You who don't exercise as much as you need to; who like the easy chair; you, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active.

Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would do if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak sluggish bowels is harmless, natural and gentle.

When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged up bowels mean that decaying fermenting food is clogged there and the pores or ducts in these thirty feet of bow-

els suck this decaying waste and poison into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel wash-day; don't use a bowel irritant. For your sake please use only gentle, effective Syrup of Figs. Then you are not drugging yourself, for Syrup of Figs is composed of only luscious figs, senna and aromatics which cannot injure.

A teaspoonful tonight will gently, but thoroughly move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with contempt, any other Fig Syrup, unless it bears the name—prepared by the California Fig Syrup Company. Read the label.

## NEWARK—B. ENT.

Miss Lola Dagent, daughter of Mr. and Mrs. Edward Bagent of East Main street, and Mr. William V. Newkirk were married Tuesday evening. The ceremony was performed at the home of Rev. W. D. Ward of Central avenue at 6:30 o'clock. They will reside in this city.

## RICHARDS—ROSE

Cards have been received in Newark from Mr. and Mrs. Abram Rose of Short Hills, N. J., announcing the marriage of their daughter Marie, to Mr. Lambert B. Richards, which took place Monday, March 10.

The groom formerly lived in Newark and was assistant to W. C. Wells, secretary of the Board of Trade.

## TO IMPROVE EXPRESSION AS WELL AS COMPLEXION

(From Beauty's Mirror).  
No face is really beautiful that lacks expression. Do you realize that continual use of powders and creams tends to spoil pliancy of skin and elasticity of expression? Why not use cosmetics and use something better, which won't clog the pores or make the skin either dry or pasty? Ordinary macerolized wax acts quite differently from any cosmetic. It wonderfully improves any complexion, giving it life and expression. By gradually, harmlessly peeling off the thin veil of outer surface skin, it brings to view a pure, soft, spotless complexion, naturally beautiful and youthful. Every druggist has this wax. It is a cream more than one ounce is needed. It is spread on nightly like cream and washed off with soap in a week or two the transformation is complete.

Wrinkles do not of course enhance the expression. Neither do the things many use to eradicate them. A treatment free from all objection is made by dissolving 1 oz. powdered sassafras in 12 oz. witch-hazel, use as a wash lotion. This soon removes even the most obstinate wrinkles. (Advertisement.)

## Days of Humiliation and Prayer.

It has been so long since any president appointed a special fast day that but few people realize that such days have been appointed by presidents. On March 23, 1798, President John Adams appointed Wednesday, May 9, of the same year, "as a day of solemn humiliation, fasting and prayer," and this was the first time that this had been done. President Lincoln named two such days. On March 30, 1863, at the request of the United States senate, he named Thursday, April 30, of the same years, as "a day of fasting, humiliation and prayer." On July 7, 1864, President Lincoln, in accordance with a concurrent resolution of the two houses of congress, appointed the first Thursday of the following August, "as a day of humiliation and prayer." These days were named only when great events led the country's leaders to believe that days of rest on which to consider the circumstances were necessary.

## A Favorite Poem.

She gathered at her slender waist  
The beautiful robe she wore;  
Its folds a golden belt embraced,  
One rose-hued gem it bore.

The girdle shrank; its lessening round  
Still kept the shining gem.  
But now her flowing locks it bound,  
A lustrous diadem.

And narrower still the circlet grew;  
Behold a glittering band,  
Its roseate diamonds set anew.  
Her neck's white column spanned.

Suns rise and set; the straining clasp  
The shortened links resist,  
Yet flashes in a bracelet's grasp.  
The diamond, on her wrist.

At length, the round of changes past,  
The thieving years could bring,  
The jewel, glittering to the last,  
Still sparkles in a ring.

So, link, by link, our friendships part,  
So loosen, break and fall,  
A narrowing zone; the loving heart  
Lives changeless through them all.

## This Newspaper Ballot Will Do

The demand for ballots in the prize contest for the Globe-Wernicke Bookcase exhausted our entire supply yesterday, and in order that those who had intended to cast their vote today will have an opportunity to do so, we will allow them to bring this newspaper ballot with them—which we will accept for this day only, instead of the official blue ballot which we furnish at the store.

So great has been the interest in the contest that we intend to retain these ballots in order to compare them with the number cast in November for the Presidential candidate.

Because most people show a greater interest in Babies than they do in Presidents, we believe our store will get a greater number of ballots than any Presidential candidate.

Remember you do not have to be a customer of the store in order to be entitled to vote.

The contest closes March 15, and all the ballots must be in the Answer Editor's hands by that date.

Only one answer from each contestant considered, so send only your best answer.

### ANNUAL DEBATE HERE FRIDAY P. M.

The annual tri-annual debate between debating teams representing the high schools of Newark, Mt. Vernon and Zanesville will be held Friday night in each of the three cities. Newark will debate with Mt. Vernon here, and with Zanesville in that city. Zanesville sends a team to Mt. Vernon. The Newark boys have been working hard to prepare themselves for "trick plays" on the part of the Mt. Vernon debaters, past experience having taught them to look out for some clever work on the part of the Knox county speakers. The subject to be discussed is "The Recall of Judges." At the High school here, Newark will take the affirmative side of the question while the team going to Zanesville will take the negative.

The Mt. Vernon debaters will be accompanied by about 30 "rooters" and the evening's entertainment gives promise of being interesting to those in the audience.

The judges in the local debate are Dr. Charles Snavely of Otterbein university, Prof. C. L. Martzoff of Ohio university, and Prof. W. H. Siebert of Ohio State university.

### Tongue Removed.

Mt. Vernon, March 12.—Lyman H. Keene, collector for a local newspaper, underwent an operation yesterday morning for the removal of his tongue. A growth which has been causing him much pain for many months became so bad that the removal of the tongue was advised by specialists.

### A NEW LICENSE RECORD FOR THE PROBATE COURT

It is hoped that the superstitiously inclined who contemplate matrimony will not be held back from any consideration of the hoo-doo number "13" for if they do it will be necessary to wait probably over two years before they can get a license from the Licking county probate court, as on Tuesday the marriage license record, Volume 12, was put in use.

Volume 12 was first used December 18, 1910, and the last license was recorded Monday, March 10, 1913. In this period of two years, two months and twenty-five days, or 815 days in all, there were issued 1150 marriage licenses.

The first one recorded in Volume "13" was taken out by William Price Rockfield, a telegraph operator of Columbus, and Miss Anna Ruth Burkham of Pataaskala.

Others issued were:

Charles H. Cochran, farmer, Amsterdam, and Clara Ellen Powers, also of Amsterdam.

Robert L. Myers, electrician, Springfield, and Nina H. Romine, Hanover.

### HOOPER FELL AGAINST POLE

Two East Newark Residents Volunteer Information to Police Department Regarding Man Found Injured.

Two residents of East Newark telephoned police headquarters on Tuesday night, volunteering the information that they saw Thomas Hoover Monday night in Indiana street, very much under the influence of liquor, and that while he was under their observation they saw him fall against telegraph pole.

Both men attempted to render assistance to the injured man, but, according to their story, he became abusive and they left him to his own fate. Hoover's condition is not serious and he will soon be able to leave the hospital.

### HOW TO MAKE YOUR HAIR BEAUTIFUL

Ten Minutes' Home Treatment Works Wonders, Stops Falling Hair, Itch- ing Scalp and Dandruff and Makes the Hair Soft, Healthy, Lustrous and Fluffy.

Better than all the so-called "hair tonics" in the world is a simple old fashioned home recipe consisting of plain Bay Rum, Lavender (de composed), and a little Menthol Crystals. These three mixed at home in a few minutes, work wonders with any scalp. Try it each night and see the difference from your drugstore 2 oz. Lavender, 6 oz. Bay Rum and 1/2 oz. of Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavender, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth and draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again rub the lotion briskly into the scalp with the finger tips or a medium stiff brush. Apply night and morning. A few days' use and you cannot find a single loose or straggling hair. They will be locked on your scalp as tight as a vise. Dandruff will disappear and itching cease. In ten days' trials will find fine downy new hairs sprouting up all over your scalp and this new hair will grow with wonderful rapidity.

Any drugist can sell you the above. The prescription is very inexpensive and we know of nothing so effective and certain in its result.

### GETTING RESULTS.

## Cases for Alarm

Loss of appetite or distress after eating—a symptom that should not be disregarded.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, healthiest persons are moderate eaters. Indigestion causes more trouble than a distended stomach, and many people contract serious malnutrition through disregard of signs of the stomach.

We urge all who suffer from indigestion, or dyspepsia, to try **Small's Tablets**, with the understanding that we will refund the money paid on without question or formality, if after use you are not perfectly satisfied with results.

We recommend **Small's Dyspepsia Tablets** to customers every day, and have not known one who has not been benefited. We believe them to be without equal. They give prompt relief, assist in neutralizing acidity, stimulate flow of gastric juices, dissolve the digestive organs, and thus promote perfect nutrition and correct unhealthy symptoms. Three sizes, 25 cents, 50 cents, and \$1.

You can buy **Small's Dyspepsia Tablets** in this community only at our store:

## BOND SALE.

Sealed bids will be received at the office of the Board of Education in the High School building in the City of Newark, New Jersey, until twelve o'clock, noon, Tuesday, April 1, 1936, for the purchase of 30 one thousand dollar bonds of the school district of the City of Newark, Ohio, dated April 1st, 1932, and maturing as follows: Nos. 1 to 5, inclusive, due and payable respectively on the first day of April in the years 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, and two such bonds on the first day of April of the years 1942 to 1943, inclusive. Said bonds are of the denomination of \$1000 each, and bearing interest at the rate of 4 1/2 per cent per annum, payable semi-annually at the office of the treasurer of the school district of the City of Newark, Ohio, and are issued under authority of Section 729 of the General Code of Ohio, and a resolution passed February 25, 1933, by the Board of Education of the school district of the City of Newark, Ohio.

Said bonds to be sold to the highest and best bidder for not less than par and accrued interest. All bids must state the number of bonds bid for and the gross amount of the bid, and must be accompanied by a certified check payable to the order of the Board of Education for \$200 upon condition that if said bid is accepted the bidder will receive and pay for such bonds as may be issued as above set forth within ten days from the time of award; said check to be retained by said Board of Education until the bonds are delivered. Bids must be sealed and endorsed, "Bid for School Bonds," and addressed to the Clerk of said Board. The right is reserved by said Board to reject any or all bids.

## I Will Stake This Medicine Against Your Time

A Few Days Will Be Sufficient to Prove That You Are Curable

A few minutes of your time for a few days and I will demonstrate to you, without expense to yourself, that I have a medicine that drives Uric Acid poison from the system and by so doing cures kidney trouble, bladder trouble and rheumatism. I don't ask you to take my word for it, but simply want you to let me send you some of this medicine so that you can use it personally.

I am trying to convince sufferers from these diseases that I have something far better than the usual remedies, treatments and such things, and the only way I can demonstrate that fact is to go to the expense of compounding the medicine and sending it out free of charge. This I am glad to do for any sufferer who will take the time to write me. Understand, I will not send you a so-called "sample, proof or test treatment," nor will I send you a package of medicine and say that you can use some of it and pay for the rest, but I will send you a supply free of charge and you will not be asked to pay for it. If you do not want to be under any obligations.

All I want to know is that you have a disease for which my medicine is intended, as it is not a "cure-all," and I give herewith some of the leading symptoms of kidney, bladder and rheumatic troubles. If you notice one or more of these symptoms you need this medicine. Write me and I will send you some of it if you will write me the numbers of the symptoms you have, give your age, and your name and address. My address is Dr. T. Frank Lynott, 2225 Deagan Building, Chicago, Ill. You promise me nothing; you pay nothing for anything. All I ask of you shall be no mistake, is that you send me the numbers of your symptoms or a description in your own words of the trouble you take the medicine according to the directions I send you. It is my way of getting publicity for my medicine so that it will become widely known.

You will agree when you have used it that it dissolves and drives out uric acid poison. It tones the kidneys so that they work in harmony with the bladder. It strengthens the bladder so that frequent desire to urinate and other urinary disorders are banished. It stops rheumatic aches and pains immediately. It dissolves uric acid crystals so that back and muscles no longer ache and crooked joints quickly straighten out. It reconstructs the blood and nerves so that you soon feel healthier and more vigorous, sleep better and eat better and have energy throughout the day. It does all this and yet contains nothing injurious and is absolutely vouched for according to law. Sufferers from these dreadful and dangerous diseases can surely afford to spend a few minutes each day for a

DR. T. FRANK LYNOTT  
who will send medicine to anyone free of charge

few days to demonstrate to their own satisfaction if they are curable, especially when you consider no expense is involved, and I willingly give you my time and my medicine. All any fair-minded afflicted person wants to know is if a certain thing will cure him or her, and here is an opportunity to find out without cost, obligation or importunate loss of time. THREE FEW DAYS may be the turning point in your life.

All who are interested enough to write me for the free medicine will also receive a copy of my large illustrated medical book which describes these diseases thoroughly. It is the largest book of the kind ever written for free distribution, and a new edition is just being printed. I will also write you a letter of diagnosis and medical advice that should be of great help to you. But in order to do this I must know that you need my medicine. Write me the numbers of the symptoms that trouble you, and your age, and I will promptly carry out my promise. Show me inclination to be cured and you will be.

## These Are the Symptoms:

- 1—Pain in the back.
- 2—Too frequent desire to urinate.
- 3—Burning or obstruction of urine.
- 4—Pain or soreness in the bladder.
- 5—Frequent trouble.
- 6—Gas or pain in the stomach.
- 7—General debility, weakness, dizziness.
- 8—Pain or soreness under right rib.
- 9—Swelling in any part of the body.
- 10—Constipation or liver trouble.
- 11—Pain or swelling of the joints.
- 12—Pain in the hip joint.
- 13—Pain in the neck or head.
- 14—Pain or soreness in the kidneys.
- 15—Pain or swelling of the joints.
- 16—Pain or swelling of the muscles.
- 17—Pain and soreness in the nerves.
- 18—Acute or chronic rheumatism.

BLISS PUPILS  
SEE HOYT WRITE  
116 WORDS MIN.

J. L. Hoyt, a typewriting expert, treated the students of Bliss College Tuesday afternoon to an exhibition of speed and accuracy in the operation of his machine. Mr. Hoyt, preceding the demonstration, talked to the students. In the demonstration Mr. Hoyt wrote 116 words per minute, copying from unfamiliar matter. One half of the matter was written on one page, the paper changed and the writing finished on the second sheet. In spite of the changing of paper, he was able to maintain the average of 116 words per minute.

From dictations read by one of the dictators in the school, Mr. Hoyt wrote 107 and 118 words per minute. While blindfolded, he wrote 116 words per minute from dictation.

Mr. Hoyt entered the world's championship contest last fall and was given seventh place among the contestants. The demonstration was witnessed by a hundred Bliss students.

## OBITUARY

**I. N. BOLIN.**  
Mr. H. C. Wagoner, the Arcade photographer, was called to Decatur, Ill., Wednesday morning by the death of his father-in-law, Mr. I. N. Bolin.

**MRS. LIZZIE BOLIN.**  
An illness of several weeks from pneumonia and heart trouble caused the death of Mrs. Lizzie Bolin, aged 52, at Zanesville Tuesday evening. She was the wife of Charles V. Bolin.

Mrs. Bolin was the daughter of Isaac and Sarah Hillier. She was an estimable woman and had countless friends throughout the county. She is survived by her husband and four children, Gladys, Harold and Wilbur Bolin, of the home, and by her parents and one sister and four brothers, Miss Alice and Coulter Hillier, of Zanesville, Charles of Newark, Thomas of Mt. Vernon and Edward of Washington.

**DEATH OF CHILD.**  
William Edgar Allen, the three-months-old son of Mr. and Mrs. William E. Allen, died at the home of the parents on Monroe avenue, Tuesday evening at 7:45 o'clock. The death resulted from a severe attack of whooping cough. The infant was the only child of Mr. and Mrs. Allen. The funeral services will be held at 9 o'clock Thursday morning at the home, Rev. Father Watterson of the Blessed Sacrament church officiating. Burial will be made in Mt. Calvary cemetery.

**BENJAMIN P. GAUDETTE.**

The body of Benjamin Petre Gaudette, aged 66, who died at his home in Piqua, arrived in Newark Tuesday evening, and the funeral will take place at 10 o'clock from 112 Valiant street, the interment being made in the Wilson graveyard, north of Newark.

**How Mark Twain Introduced Himself.**

"Ladies and Gentlemen—By the request of the chairman of the committee I beg leave to introduce to you the reader of the evening, a gentleman whose great learning, whose historical accuracy, whose devotion to science and whose veneration for the truth are only equalled by his moral character and his majestic presence. I allude, to myself. I am a little opposed to the custom of ceremoniously introducing a reader to the audience, because it seems unnecessary where the man has been properly advertised. But, as it is the custom, I prefer to make it myself—in my own case—and then I can rely on getting in all the facts! I never had but one introduction that seemed to me just the thing, and the gentleman was not acquainted with me, and there was no nonsense. He said: 'Ladies and Gentlemen—I shall waste no time in this introduction. I know of only two facts about this man—first, he never has been in state prison, and, second, I can't imagine why!'"

## MISFORTUNE IN RAPID SUCCESSION AT THE CASS HOME

Misfortune seems to be making her headquarters at the home of Carey Cass, 50 Granville street, where two accidents and one case of illness have required the services of physicians and ambulance men Tuesday night. Miss Mary Linn, employed in the Cass home since Mrs. Cass and her husband's mother met with misfortune, was taken seriously ill. The Hazler & Bradley ambulance was called and removed her to her home in Baltimore street. About two weeks ago, Mr. Cass' mother, Mrs. George Cass, of 50 Eighth street, fell at her son's home and sustained a fractured shoulder. More than a month ago, the younger Mrs. Cass was terribly burned when her clothing caught from a gas stove, burning the garments from her body. Mrs. Cass has suffered greatly from the injuries and her recovery has been retarded by the continual recurrence of misfortune in her home.

## ANAEMIC PEOPLE

Need More Iron in the Blood.

If you are anaemic, you need more iron in your blood, and the tell-tale symptoms are a pale face, colorless lips, ashen finger nails, poor circulation, and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Mrs. G. S. Manuel of San Antonio, Texas, it will do for every anaemic run-down person. She says: "I was weak and nervous and had general debility for about three years. My health was badly run down and my complexion became sallow and badly affected with pimples. While in this weakened condition, I contracted pleurisy, which made it very hard for me. I am happy to say that Vinol has restored me to health again, and I have no cough or soreness of the lungs at all."

We ask every anaemic or run-down, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. Frank D. Hall, druggist, Newark, O.
